

ELECTRONIC HOOKLOAD SENSOR

Contact's Electronic Hookload Sensor provides clients with a robust sensor at an affordable price point. The sensors 4-20mA output is calibrated to the specifications given by the customer.

Each loadcell is provided with calibration certificates and backed by a 1 year warranty.

BENEFITS

- ☑ Stainless construction that is durable in all applications
- ☑ Linear 4-20mA output
- ☑ Lightweight
- ☑ Easy to Install When Ordering
- ☑ Line Size
- ☑ Max Single line load
- ☑ Wiring requirements
- ☑ Length of Cable required (if required)

DATA

Excitation	:	10-28 VDC
Output	:	4-20mA 2 wire current loop output
Wire diameter range	:	0.5"-2"
Accuracy	:	2%
Weight	:	25lbs
Shipping Dimensions	:	18x12x8 (inches)
