

TYPE D & F MUD GAUGES

Contact manufactures a full range of mud pressure gauges to suit every application. From standard service to salt water service to sour gas service, we have the gauge for you

FEATURES

Available in the Type D (Type 4) or Type F (Type 6) version, all of our gauges are available in NPT, 1502 Hammer union or Flanged connections. Our gauges are designed with an internal dampening system which reduces gauge fluctuation. Each gauge is liquid filled to minimize wear on the internal movement system and delivers smooth accurate readings in the harshest of conditions.

TYPE D

1000 PSI	7000 kPA	70 BAR
3000 PSI	21000 kPA	210 BAR
5000 PSI	35000 kPA	350 BAR
6000 PSI	42000 kPA	420 BAR

TYPE F

1000 PSI	7000 kPA	70 BAR
3000 PSI	21000 kPA	210 BAR
6000 PSI	42000 kPA	420 BAR
10000 PSI	70000 kPA	700 BAR
15000 PSI	105000 kPA	1050 BAR
